

Supplement to

Incorporation of anthropogenic materials into passerine nests on St. Eustatius, Caribbean Netherlands

Hannah Madden*^{1,2} and Hailley Danielson-Owczynsky³

Acknowledgments

No permit was required to conduct fieldwork. The authors wish to thank the Caribbean Netherlands Science Institute for logistical support, and Lalia Gibbs for field assistance. Author contributions: HM conceived the study, HM and HDO conducted fieldwork. HM compiled and wrote the manuscript. Both authors edited and approved the manuscript.
