The *Journal of Caribbean Ornithology* is an open-access, refereed scientific journal produced by the non-profit society BirdsCaribbean. The journal has been in publication since 1988 (first as *El Pitorre* until 2002) and serves as an important resource for ornithological information in the Caribbean. JCO publishes articles in English, Spanish, and French, and welcomes submissions of research articles, notes, review papers, and book reviews on all aspects of avian biology, ecology, natural history, and conservation within the Caribbean. All of the journal's articles are open-access and can be downloaded from jco.birdscaribbean.org.
