Within USA – US\$12.00; includes shipping

## A BIBLIOGRAPHY OF ORNITHOLOGY IN THE WEST INDIES

by James W. Wiley

*Proceedings of the Western Foundation of Vertebrate Zoology, Volume 7 – 2000*

817 pp.

11,648 bibliographic entries, each annotated  
3 indices (taxonomic, geographical, and subject)  
6 appendices. Paper: ISSN 0511-7550

Available from:

Western Foundation of Vertebrate Zoology  
439 Calle San Pablo  
Camarillo, California 93012 USA

Price: US\$42.50; includes shipping

## BIRD SONGS IN JAMAICA

by

GEORGE B. REYNARD AND ROBERT L. SUTTON

Library of Natural Sound, Cornell Laboratory of Ornithology  
Cornell University, Ithaca, NY 14850-1999

This sound guide identifies 119 species found in Jamaica, including such characteristic species as Chestnut-bellied Cuckoo, Jamaican Euphonia, Jamaican Oriole, Jamaican Owl, Ring-tailed Pigeon, Crested Quail-Dove, and White-eyed Thrush. It is designed as an audio companion to Jamaican field guides such as *A Field Guide to the Birds of the West Indies*, by Herbert Raffaele *et al.*, and *Birds of Jamaica, A Photographic Field Guide*, by Audrey Downer and Robert L. Sutton, photographs by Yves-Jacques Rey-Millet. The guide includes recordings of all resident land birds, including more than two dozen endemic species, many never before available. Also, many water birds and calls of 17 migrants, mostly warblers, are presented. This is a must-have guide for birders traveling to Jamaica. Two compact disks or cassettes.

Prices:

2 CDs – US\$18.95 + US\$1.87 postage and handling  
2 Cassettes – US\$18.95 + US\$2.09 postage and handling

## FIELD GUIDE TO THE BIRDS OF CUBA

by

ORLANDO H. GARRIDO AND ARTURO KIRKCONNELL

*Foreword by Lester L. Short*

*Illustrated by Román F. Compañy*

Cornell University Press  
2000

This field reference contains 51 color plates and 662 images that illustrate male, female, and juvenile plumages (in some cases for the first time) of Cuban birds. Many migratory species are depicted in both winter and breeding colors, providing a glimpse of many common North American birds as they appear when away from northern surroundings. In the comprehensive *Field Guide to the Birds of Cuba*, Orlando H. Garrido and Arturo Kirkconnell share their vast wealth of knowledge about birds – and habitats – that are too little known.

*Field Guide to the Birds of Cuba* contains:

- Species accounts including habitat descriptions, similar species, range, status, nesting and feeding habits, and vocalizations.
- Checklists of endemic species and subspecies.
- Background on the geography, climate, geology, paleontology, and natural history of Cuba.
- 144 maps that show regional boundaries and vegetative habitats as well as the local distribution of each species.

253 pp., with appendices, glossary, bibliography, and index. Available in hard-bound (ISBN: 0-8014-3718-0; \$59.95) and paperback (ISBN: 0-8014-8631-9; \$29.95) from:

Cornell University Press  
Sage House  
512 East State Street
